

NOTICE TO RESIDENT

**Stittsville Diversion Trunk Sewer
Contract No. ISD15-5067**

CONSTRUCTION NOTICE

April 2019

Dear Resident,

Beginning on Thursday April 11, the City will begin construction work on the new Stittsville Diversion Trunk Sewer. The new trunk sewer connects to the existing Stittsville sewer at the intersection of Abbott Street East and Robert Grant Avenue and flows north to Maple Grove Road, where it connects to the existing Maple Grove trunk sewer just west of Poole Creek. Most of the work is within the unopened Robert Grant Avenue right of way (ROW), except for the diversion structure on Abbott Street East and again along Maple Grove Road from the unopened Robert Grant Avenue ROW to the west side of Poole Creek.

Who: The City of Ottawa has retained the Contractor, Taggart Construction Ltd., to complete the work.

Why: The new sewer will send wastewater to the new Kanata West Pumping Station, reducing flows to the existing Hazeldean Pumping Station (HPS), eliminating the need for further expansion of the HPS.

What: Work involves construction of a new diversion chamber on Abbott Street East, east of Iber Road, open cut sewer construction along the unopened Robert Grant Avenue ROW and Maple Grove Road to Poole Creek, and trenchless sewer construction under Hazeldean Road.

When: The construction work is tentatively scheduled to begin **the second week of April and is scheduled to be completed by end of summer 2020.**

Where: The location of the sanitary sewer is shown on the figure below.

NOTICE TO RESIDENT

Accessibility

Accessibility is an important consideration for the City of Ottawa. The City makes every effort to provide access through and around construction sites. If you require special accommodation, please contact the undersigned.

Construction Disruptions

The Contractor will take every precaution to minimize interruptions to the everyday life of your family and/or operation of your business, but, as you can appreciate, there may be some inconvenience during the work, such as traffic delays, parking restrictions, and noise. We would like to thank you for your patience and co-operation.

Contact Information

As part of this contract, the Contractor is assuming full responsibility for the construction work until it is entirely complete as well as any damages to private property resulting from these construction activities. In the event of such occurrences, all claims for damages should be immediately reported both verbally and in writing to the Contractor and to the City's Contract Administrator.

This will ensure prompt notification of appropriate authorities to complete the claim investigations.

For any emergency outside normal working hours on weekdays and weekends, call the City at 3-1-1.

Should you have any inquiries, please do not hesitate to contact:
